November 2017

The Editor's Corner

Since I returned from our cruise in late October it has either been too windy or too cold to do much flying. I did get out a couple of late afternoons at the field behind the Cumberland Town Hall on US 40 and flew my UMX Timber and Monday it warmed to the 60s with only 7mph winds so got in 10 flights at the field. Steve Kessler and Mike Reynolds (a new member) were also out there enjoying the good flying weather. There were 2 spots in the north section of Geotex that had torn, not really sure what caused it, that Steve and I "tacked down" with some staples. We will need to put a patch over this area in the spring but it should not continue to tear away and be OK for the winter.

Our December 4 club meeting will include the normal flying in the gym and then we will setup tables for a swap meet. We have invited all the area clubs to participate. Attached to the email is more information.

Vern has several planes for sale that he will have at the Swap meet. I have attached the info to the email with this newsletter.

Hobby RC has moved to their new location and will be hosting some mini-drone and Night Vapor racing at the new shop. They are just south of the K-Mart at 5135 South Emerson, Suite K. You can find them at www.facebook.com/hobbyrcindy

In this Issue.

Meeting Minutes

Items for sale

The next meeting will be held on Monday, December 4 at the Church 7pm

Indianapolis RC Modelers Minutes of Club Meeting November 6, 2017

Meeting opened at 7:06 pm at the Church—24 members present

Minutes and Treasurers report approved

Nominations for officers for 2018. Steve Woods, Pres; George Horning, Vice-Pres, Vern Doty, Treasurer; Ted Brindle, Secretary

Further nominations can be made before the election at the December meeting

We will have a swap meet in conjunction with the December club meeting. No fuel/gasoline will be allowed in the church. Members from area clubs will be invited to participate. Will ask for a donation for a table which will be given to the church.

Lease—Roy Wilson discussed the status of the lease. He will be meeting with the landlord later this week to get a 2 year lease signed. He is fine with having us on the property but is just worried that the Government may change the rules on some of the programs that would prohibit him from leasing to us in the future. He likes what we are doing and plans to allow us to lease the field for a long time.

Website—Tim Cansler is very busy with work and needs help to get the website up and going again.

Steve Woods has gotten his Contest Director approval from AMA so we now have 2 CDs in the club. Steve and Ted Brindle

Discussion was held on how we might increase our membership next year. We need to brainstorm this and come up with some action items for next year. Our current expenses exceed our dues income by about \$1800 a year.

Gene Crider has some extra control horns for the Convergence plane if anyone needs some.

Meeting closed at 8:10pm
