Indianapolis R/C Modelers Chapter 288

WWW.INDYRCMODELERS.COM

July 2019

The Editor's Corner

Well the rain finally stopped and the heat came in but that has not slowed the flying at the field. We had a good turnout for our Fly Anything RC event with about 26 pilots and lots of flying and good food and we made some decent money for the club.

Our Tim Mills Derby Days Air Show turned out with a good crowd and lots of interesting planes for our guests to watch. We made about \$950 at the show for the club. Vern will be going over the details of the financials for both events at the club meeting on Monday Aug 5.

We have lots of activity coming up in August. Aug 4th is our Float Flyin at Roy Wilson's farm starting at 2pm. (earlier email was sent with directions) Aug 5th is our club meeting at the field at 7pm with open flying before and after the meeting. Aug 9/10 is the Electric Flyin with the Ft Wayne Flying Circuits. They have a great site with power and water and the night flying on Friday will be fun. Aug 17 is National Aviation day and the Johnson Cty club is having a flyin for the USO. Aug 24th is our Annual Toys for Tots event. We will have lots of pilots prizes for the event that have been donated by the SPAX company. Then we end up Aug with the War Bird flyin at AMA site on Aug 29-31.

We have had a couple new members join the club over the last couple months and we had 3 people at the air show that were interested joining. If you see a new face at the field introduce yourself.

Also reminder that everyone needs to put your club card in the board when you are flying at the field

See you at the field!

Ted

Meeting Minutes July 2019

Event Calendar

The next meeting will be held on Monday, August 1 at the Field

Minutes from the Indianapolis RC Modelers Meeting 1 July 2019

Meeting opened at 7pm—25 members present

New member—Robert Kent

Minutes and Treasurers reports approved as presented—there is currently \$1450 in the Geotex fund

Donations made by members for the club picnic paid for the food that the club purchased.

Extensive discussion on the cleanliness of the Porto—Johns for our members and guests. Several members will investigate other possible vendors and the cost. Vern will contact CGS and have them pump and clean them prior to our All RC flyin.

Our flight stations are falling apart from the sun and continuous moving for mowing. Jack/Gary/Cory will work on a design and prototype for a metal flight station.

Club Float flyin's at Roy Wilson's farm on Aug 4 and Oct 6

Extensive discussion on the air show

Meeting closed at 8:05pm
