Indianapolis R/C Modelers Chapter 288
WWW.INDYRCMODELERS.COM
June 2019

The Editor's Corner

Rain, Rain go away—the Indy RC Modelers want to come out and FLY! It has been a very wet and windy June but we have also been able to get in some great flying days. The club activities really start to ramp up now that we are into July. This Sunday, June 30 is the rescheduled club picnic. Then our club meeting at the field on July 1. Then the Fly Anything RC event we are sponsoring on July 13 and then the Annual Tim Mills Airshow on Sunday July 28.

Folks—we really need to get more participation at our **club sponsored events**. Remember this is your club and everyone needs to support the club activities. At the electric flyin we had more non-club members in attendance than club members and some came from as far away as Evansville and Ft Wayne. Most all of our members fly at least a couple electrics so I anticipated a much larger turnout. These events are not high pressure and anyone of any flying skill Level 2 or above can fully participate and have a great time. Even if you don't want to fly, come on out and have a burger and talk to the other pilots. For these up coming events in July we really need to have a good turnout of club members—we need everyone in the club to help out at the Air Show if you are in town.

Also—on the events listing at the end of this newsletter note the other flying activities going on at the Southside club, Johnson County Club and the Ft Wayne club. The Danville club is also sponsoring an events this Saturday. You can get to the total list on the AMA website.

Remember to fly safely. Make sure you have a throttle cut on the TX, make sure that the Failsafe is setup correctly, call you takeoffs and landings and have fun.

See you at the field!

Ted

Meeting Minutes June 2019

President Corner

Photos from the Cub Flyin

Event Calendar

The next meeting will be held on Monday, July 1 at the Field

**Minutes from the Indianapolis RC Modelers Meeting
3 June 2019**

I was not at the meeting and the following is what I was given as the minutes for the 3 June meeting

“ we started at 7:02 pm, lots of people present, talked about general items.(field repair, club picnic, events) closed meeting and people flew. “

Presidents Corner

Would someone please find Mother Nature and give her a Midol. She really needs it. This is the weirdest weather I have seen. Cold and rainy one day and hot and sunny the next then cold and rainy. June is almost over and yet we were able to get in the all elect fly-in and the cub and floaty things fly in. I hope those who were able came out to support the club did so because without your support, we won't have a club. I certainly hope this July will be dryer and calmer. For me, I have been on the go. Got back from Warbirds and classics over Michigan in Grand Ledge, Mi and then Windy City Warbirds and Classics in St Charles IL. The weather at both events was great even though WeatherBug said different. I flew multiple times during the air shows. I even dropped 12 paratroopers with my plane and my friend John dropped an additional 12 paratroopers to simulate the D-Day invasion. It was cool. I met some new friends from Canada and renewed old friendship with a lot of people. I got back Sunday night and Monday morning I took my wife to Orth Indy for an ankle replacement. As I write this letter, I am sitting at Orth Indy contemplating how busy I have been this summer and will be for the rest of the summer because I really enjoy flying at events and meeting new people.

If you are reading this, I hope you take away some important things. First—I am making new friends and I am having fun. Are you!

For the upcoming events, this Saturday I will be going to Danville for the Danville warbird event. (just across town) and Sunday is our club picnic. Then in 2 weeks, I am going to Air Supremacy over Goshen, this is also the weekend of our fly what you bring event. The following week going to the Attabury warbird then the following week going to the Ft Wayne warbird (fri, sat) and then coming to our field Sat night to camp out our airshow on Sunday. then a little break before the Toys for tots' event and the Indiana warbird campaign, I am sure there are a few more I will attend that I don't know about yet.

Time to have fun

Time to Fly

Fly safely,

Stephen Woods

PS. I put a carrier landing pad to trap aircraft on top of my trailer. Just make sure your tail hooks are extended. Bolters could result in major aircraft damage.

Here are a few photos from the Cub and floaty flyin
