July 2023

The Editor's Corner

The 2023 flying is going great with lots of activity at the field. We had many visitors and did several intro-flights at the club open house on July 29th.

Tom Shores did a great job of getting the AMA flight simulator trailer to show off our hobby at the Greenfield and New Palestine farmers markets. Tom has also been great at coordinating the Wednesday flight training and working with Greg Masters who brings out his trailer with the flight simulator. New pilots try out flying on the simulator first and then move on to flying the Aero Scouts on the buddy box.

On Saturday, Aug 26 the club has been invited to show off our hobby at the Cumberland Community Day. We will only be able to have a static display with planes and Greg will have his trailer with the flight simulator. This will give us an opportunity to talk about our hobby to another audience. This will be held in the field south of Cumberland Town Hall which is just east of the Meijer store on US40 in Cumberland. The community day is from 3-6 and is followed by the Cumberland Beer/Blues/BBQ. We will need club members to participate and hand out some AMA literature. Parking for volunteers is available at the church just east of the field.

Because of our participation we will be holding the August Common Club event at 5:30pm on Monday Aug 7th prior to the club meeting. We hope that brings out more pilots for the event.

See you at the Club meeting at the field Aug 7th

Ted
